

Honorable Max Baucus
United States Senate
Washington, D.C. 20510
202-224-4515

Dear Mr. Chairman:

I am writing to you today to ask your support of S2570, also known as The Robert James Act. I believe the Commissioner of Social Security should have the authority to issue waivers for those with extenuating circumstances such as being terminally ill with a limited life expectancy. I ask for your full support of this bill and hope to see it move quickly through Committee and put to a full vote on the Senate floor. This is an important issue and one that would benefit many people at a time when monetary issues should not be a burden or concern. Thank you for your support and time!!

Sincerely,
